Unified POS Solution

Searching for a New Balance

Productivity Without Compromise

Streamline your F&B operations with DIGI POS solution and maximise your profits.

Minimalist Design

Compact design with built-in thermal receipt printer.

Operator Screen

15" capacitive touch screen is user-friendly for daily operation and navigation.

Interactive Customer Display

10.1" vibrant LCD display for transaction and promotional information.

Hybrid POS System

POS data is stored on the local device and able to function without internet access.

Intuitive User Interface

Configurable for either dine-in or quick serve service and supports multiple languages.

Configurable Operation Menu Screen

Create and arrange menu items, table layout and payment keys for easy entry.

e-Payment Solutions

Ability to support integration to your local electronic payment vendor.

Minimal Training

User can learn and pick up the POS operation within minutes.

Franchise Ready

Expand your business with ease and convenience with our cloud backend solution.

DMC

DIGI Management Console

Remote Multi-Store Reporting

Web-based cloud solution for on-the-go access to analysis reports on sales, inventory and employee activities across multiple stores.

Easy Configuration

Remotely add new PLU items, launch store promotions and configure other POS settings.

Scalable Investment

Pay only for what you need and add new outlets as your business expands.

Dedicated Data Center

Ease of server maintenance and protect against data loss with no IT hardware investment required.

Integrated Solutions

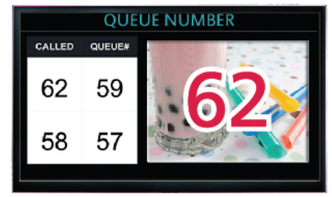

Handy Ordering Terminal

Take and send orders without leaving the dining area with this portable device.

Queue Management System

Enhance customer's collection experience and optimise productivity at the pickup counter with accurate real-time order status updates.

InfoTag Solution

Replace your paper labels with our Electronic Shelf Labels and enjoy dynamic pricing that is always in sync with the POS system.

DIGI Scale Integration

DIGI's POS system and weighing scale can be updated with new PLU information simultaneously by connecting to the same network, saving you valuable time to serve your customers better.

Third-Party Integrations

From accounting and CRM to QR code ordering solutions, our POS allows endless integration possibilities to increase your efficiency.
